Objective

Software Engineer with experience building responsive web applications using JavaScript, React, Node.js, and modern tooling. Focused on developing clean, user-centered solutions and contributing effectively in collaborative development environments. Seeking opportunities to grow as a Full-Stack Developer.

Education

Sheridan College, Diploma in Computer Programming - (Sept 2024 – Dec 2025)

- Coursework: Web Development (HTML, CSS, JavaScript, React), Java, C, Systems Programming, Database Management, Networking, Project Management

Gujarat Technological University, Diploma in Computer Engineering - (Jul 2019 – Aug 2022)

- CGPA: 8.80 / 10.00
- Relevant Courses: Data Structures, Algorithms, Databases, OS, .NET, Networking, Cybersecurity

Experience – Volunteer

Web Developer, Hackville — Sheridan College

- Contributed to the development of the official Hackville event platform used by students and faculty.
- Participated in requirement-planning sessions to define platform goals and user needs.
- Built core pages including RSVP, Sponsor, and Application flows using JavaScript and TypeScript.
- Implemented QR-code check-in to reduce wait times and streamline attendee onboarding.
- Collaborated in Agile sprints and contributed to code reviews to maintain code quality.

Projects

Tomato – Food Ordering Website (Frontend UI)

- Created a restaurant landing page with clean layout and responsive UI.
- Designed engaging visuals and interactive sections for improved UX.
- **Tech:** HTML5, CSS3, React.js

Travel – Explore Beaches (Landing Page)

- Built a visually appealing homepage with strong emphasis on layout and typography.
- Added hero section, call-to-action areas, and responsive styling across devices.
- **Tech:** HTML5, CSS3, JavaScript

Shoppers – E-commerce (Homepage UI)

- Designed a minimal e-commerce homepage with structured product layout.
- Enhanced UI clarity through spacing, clean styling, and responsiveness.
- **Tech:** HTML5, CSS3, JavaScript

Technologies

Frontend: HTML5, CSS3, JavaScript, React.js, TailwindCSS, Bootstrap

Backend: Node.js, Express.js, MongoDB, REST APIs

Tools & Platforms: Git, GitHub, Postman, VS Code, NPM, Vite, Netlify, Vercel, Figma, Canva, Cursor, Replit

Other: Authentication, WebSockets, Responsive UI, Debugging
